OnDeck App - Step 10a

Your child's seed time appears as "Previous". Their time for this particular event is listed as "New". If they shaved time off their seed time, the delta is shown in green. If they added time, it shows up in red

The screenshot shows the OnDeck app interface for a swimmer named Josephine Robson. The header displays the swimmer's name, event (50 Breast), and meet information (2013 ODSL Divisional Meet @ PSS w/TBS, PCB & SGC). Below this, it shows 'Finals' with 'Entered: 59.63' and 'Finished: 57.58'. A Facebook share icon is highlighted with a green box. A table below shows performance metrics for the swimmer, with a blue box highlighting the 'Delta', 'Previous', and 'New' columns. The table has two rows: one for the swimmer's performance and one for the seed time. The bottom of the screen has a navigation bar with 'Back', 'Menu', and 'Show Stndrds' buttons.

| # | Delta | Previous | New | Running Time |
|---|-------|----------|-------|--------------|
| 1 | -2.05 | 59.63 | 57.58 | 57.58 |
| | -2.05 | 59.63 | 57.58 | |

Step 10a:
If you wish to share this result with your Facebook family and friends, you can do so by touching the "fb" emblem.

OnDeck App Notes

- ❖ If attempting to view details for a future meet that has not been seeded, yet, you will get a message that says, “Notice: Heat/Lane assignments will auto-populate when event is seeded.”
- ❖ Once the meet has been seeded, you’ll be able to see your child’s heat and lane assignments, immediately, and not have to wait for the meet sheet.
- ❖ There are many more aspects to this app, than what I’ve outlined in this document. So feel free to explore.
- ❖ If, in 2014, you open the app and aren’t seeing any 2014 meets even though they are listed on the team website, delete and re-install the app. I ran into this issue and reinstalling it fixed the problem.
