

## Modified Ballot Instructions

Fill in for the watch line, the order of finish, according to the timer=s cards. Similarly, fill in the order of finish for each of the two place judges. If there is a tie, enter that place for each lane involved in the tie, skip to the next available place and continue recording; e.g. if two swimmers were tied for first, you would record a >1= for both lanes and then skip >2' as there would be no 2nd place.

When the order of finish has been entered, add the three rows of data and write the total for each lane onto the Total row. On the bottom >Place= row, record a >1' for the lowest value in the >Total= row, a >2' for the second lowest, etc. Again, if the total points are the same, record the finish as a tie. See sample below.

### Sample Ballot

LANE	1	2	3	4	5	6
WATCH	5	4	1	2	3	6
JUDGE 1	5	4	3	1	2	6
JUDGE 2	6	4	1	3	2	5
TOTAL	16	12	5	6	7	17
PLACE	5	4	1	2	3	6
