The Folsom Sea Otters (FSO) Swim Team is looking for community supporters of our great recreational youth program. Your support will help us with swimmer scholarships, coaches training, equipment updates and so much more. Most importantly your support will help us build in our local area youth the skills, confidence and ability to live a healthy and active lifestyle.

The FSO Swim Team has proudly represented the City of Folsom since 1985. The FSO Swim Team grew by over 100 kids in 2019, bringing our swimmer total to over 300 children ages 4-18. These children were provided the opportunity to learn the valuable benefits swimming has to offer, not just in the water, but outside as well. Our philosophy is to provide a positive, team oriented, learning environment where each swimmer can achieve their full potential by developing and refining the skills needed to be successful, all while having fun.

As with most youth sports programs, our team was forced to cancel our 2020 season because of Covid-19. We are re-starting this year and we need your support.

With your help, we will continue to provide our local area youth with a quality recreational swim program and terrific opportunity for social interaction and growth. In exchange for your generous support, we offer several sponsorship packages that will help advertise your business. Please review the attached material to see how. FSO is a nonprofit public benefit 501(c)(3) corporation, which means your donation qualifies as **tax deductible!**

We appreciate your time and consideration of our request. We could not run this invaluable program without the support of our amazing community. Your donation will be recognized and greatly appreciated.

Please feel free to contact me with any questions you have at (916) 370-0342 or fundraiser@folsomseaotters.com.

Thank you,
Kristen Brown
President
