Report from Sanctions Chair

First and foremost to all meet directors, thank you for cooperating and utilizing new meet templates. This reduces time spent on sanctioning an invite to half an hour to an hour in comparison to 3-5 hours previously when all needed to be re-arranged, checked and re-checked. It also reduces risk of errors and ultimately our LSC’s liability by complying with all pertinent USA Swimming and SD Swimming Rules and Regulations.

For the record and possible addition/clarification to Rule 2, Sanctions; I would like to invite a brief discussion/vote on the following topics:

**Changes Permitted by SD LSC Chair & Vice Chair after Meet has been Sanctioned**

What changes SD LSC can permit after an invite has been sanctioned as there have been some irregularities this past season. The solution to this is to educate meet director/host to properly define possible actions they may take and not allowing changes after invite has been sanctioned. With reference to proposed changes for RULE 2 on current agenda, can “authoritative sources” please be defined? Is the author referring to USA Swimming or SD LSC?

**Recommendation 2 – RULE 2 – SANCTIONS**

Reasons: Our current statement is an inadequate/misleading summary of what the USAS Rule says on almost a full page. This change forces people to go to the authoritative source for information.

2.1 (2) Change of Program – SD Meets must comply with USAS Rule 102.8. Once the meet is sanctioned and the announcement is distributed, any changes made must comply with the order of events, entry provisions or starting times. Comply with USA Swimming Rule 102.8.

Some changes permitted this season was changing of meet times, elimination of events, reducing entry limits etc. Please discuss the following.

1. Should start times be changed after sanctioned, and if so what procedure should be followed?
2. Can some heats/events be eliminated if not specified prior in invite if not specified in invite?
3. If a meet invite does not specify specific action that will be taken to prevent host from eliminating entries – can Chair permit these changes?
Dealing with the enforcement of the four hour rule has been challenging for all. Teams depend on revenue and athletes needs fair amount of events to justify spending so much money traveling to meets. There are several ways to avoid having to cut entries as long as that has clearly been written in the invite.

I propose/suggest the following amendment to Rule 2 SANCTIONS in SD Swimming Inc. Policies and Procedures to level the playing field and keep our sanction process fair for all:

Add par. c to 2.1

Specify alternate actions to be taken clearly in meet invite. No changes will be allowed after meet has been sanctioned.

Unless possible action requested to be taken has not clearly been listed or identified in sanctioned invite (w.r.t meet length) that SD LSC cannot rule for those changes to be made after meet has been sanctioned. Meet length par. can have all or combination of following statements that will provide host with several options before having to cut entries depending on amount of entries received after entry deadline and meet has been seeded.

Meet Length: USA Swimming Rules require that events at a meet should be planned to run no longer than 8 hours (102.1) or 4 hours for swimmers 12 years and younger (205.3F). Entries will be input in the order they are received. When the computer generated timeline indicates that the time limit has been reached for any session,

- Start times may be adjusted to ___ am depending on entries received.
- relays will be removed from that session. If after removing the relays we are still over the limit, then the afternoon sessions will be ran as one 12&Under age group and we will combine both boys and girls events. The scoring for these events will still be the same as stated above. If removing the relays and or combining events doesn’t allow for the time limits to be met, then entries from the team(s) received last will not be entered into the meet. Team coaches will be notified if their entries were not accepted, and fees will be refunded.
- the host team reserves the right to reduce entries per athlete from ___ to ___ per day to accommodate as many individual athletes as possible. Team coaches will be notified immediately and can choose to withdraw entries if this change is not acceptable
- Teams may be asked to limit number of relays they can enter for the 12&under athletes or relays may be eliminated if needed to comply to 4 hour rule.
- entries from the team(s) received last will not be entered into the meet. Team coaches will be notified if their entries were not accepted, and fees will be refunded. Fees will
also be refunded for events or swims not completed if the meet referee stops the meet
to comply with time limit rules.
- Add any other suggestions teams may have after discussion.

LOCAL SWIMMING COMMITTEE (LSC) OFFICIALS

I am in need for a current updated list of all certified officials and the specific functions they are
certified to perform. I need to know who can provide me with this. I have exhausted all my
options. The list I have from Sherry (Registrar) only shows if someone is an official member of
USA Swimming and not in what capacity they can volunteer. According to USA Swimming’s
Minimum Standards (See attachment), Stroke and Turn Judge, Starter, Referee etc. all have
different education and training requirements and since sanction is contingent upon officials
meeting requirements of 202.3.3 I need it for two reasons, we need to verify that our meet
officials meet the requirement of 202.3.3 as well as it will be extremely handy to make a list
available to all our meet directors who struggle to find starters, referees and stroke and turn
judges for their meets. I need to know who can serve in what capacity if I am going to be
responsible for issuing a sanction for a meet invite.

On several occasions this past season, meet directors scrambled to find officials required to run
their meet and we almost had to withdraw a sanction as we had no more resources to contact.
If there is a clear, concise and up to date list of all certified (in specific capacities) Officials with
their contact details this will potentially eliminate this problem. Officials who wish not to be
contacted do not have to be on the list. I have requested this on several occasions and am
asking it again in order to assist our meet directors solving their biggest frustration.

We need to brainstorm actions that we can take as an LSC to encourage more parents to
become certified officials. Perhaps offer incentives from revenue generated since sanctioned
meets cannot be held without key personnel. It is a problem that is not going to go away unless
we address it.

UPDATING TEMPLATES

Would like to have short discussion and vote by coaches (as per Bruce Stratton’s instruction) on
whether time trials should be allowed for swimmers that are entered in the meet or only for
the events swimmers are entered in in order to avoid age up athletes missing last chance
opportunity to qualify for state or aged up athletes to swim new events they have not
previously participated in since aging up.

Attached minor corrections requested to be made on INVITE TEMPLATES. Would suggest that
we include possible procedure in our bylaws that allows secretary to fix errors and omissions
without having to wait for next annual HOD meeting to ensure athletes best interest is always our top priority.

Templates for Review and Approval of Requested Amendments/Corrections (Changes Requested Redlined).

USA SWIMMING MINIMUM STANDARDS
Guidelines

LOCAL SWIMMING COMMITTEE (LSC) OFFICIALS
March 1, 2002

MISSION

Our sport relies heavily on volunteers to work in the capacity of officials in order to conduct fair and equitable competition for our athletes. In order to achieve this stated goal minimum standards have been adopted by Resolution by the USA Swimming Board of Directors.

The goal of having all Local Swim Committees (LSC) adopt these minimum standards for certification of officials is to set standards, that when applied, will accomplish the following:

* assure a clear and consistent knowledge of the rules
* provide sufficient time in training to assure familiarity with all levels of competition
* provide opportunity to work on the deck and advance through the certification process
* allow automatic acceptance at the Stroke & Turn level between all LSCs meeting the USA Swimming Minimum Standards Guidelines
* maintain knowledge of the rules current

The sessions referred to in the guidelines should be of a duration to assure sufficient time to observe a significant number of swimmers and should contain a complete schedule of events to provide the opportunity to observe all strokes.

LSC’s may set minimum standards for additional positions such as Referee (Non-Starter), Administrative Referee (Non-Referee), Clerk of Course, Timing Judge, Equipment Operator, etc.

Any exception to these minimum standards must be approved by the National Officials Chairman who may stipulate appropriate conditions for each exception.
