## WHY JOIN THE KINGSPORT PIRANHAS?

The *Kingsport Piranhas* is a comprehensive swimming program offering year-round instruction, training, and competition for individuals of all ages and abilities (pre-school to adult). Our quality program attracts individuals from all areas of the Tri-Cities. Anyone from beginner swimmer to potential national champion can join our program.

The *Kingsport Piranhas* welcome athletes who play multiple sports or participate in several extra-curricular activities throughout the year. We understand that swimming is an extended commitment that can begin very early in life and extend through young adulthood. We do not expect an athlete to commit only to the sport of swimming to be a part of our team. Many athletes want to experience a variety of sports and activities and we try our best to accommodate.

For those who aspire to join competitive swimming at the elite levels, the *Kingsport Piranhas* provide committed and motivated young swimmers the opportunity to train seriously in preparation for those higher levels of competition. *Piranha* swimmers who strive to rank among the top swimmers in their age categories are provided a specialized training program designed to push the swimmers to their peak performance potential every week. The goal of the *Piranha* Coaches is to provide the tools necessary for success in state, regional, and national competition. It is up to the swimmers to grasp the opportunity and give it a shot!

## INSTRUCTIONAL CLINIC & TEAM TRYOUT

The coaching staff would like to invite all swimmers interested in joining the Kingsport Piranhas to our beginner [Instructional Clinic & Team Tryout](#) at the Dobyns-Bennett Pool. In the clinic, we evaluate the swimmer's skill levels and provide instructional insight into potential improvement. We provide a quick detailed run through of all the strokes and offer a few key advanced tips. At the end of the clinic, the swimmers will be tested and evaluated in all aspects of competition swimming. If interested, we can place the swimmer into our program according to their age and skill level. We recommend signing up for our [SwimAmerica](#) Developmental School prior to trying out for the team if the swimmer has never had prior swim lessons. Check our website for future clinic dates. Register now to dive ahead of the competition!

He is a graduate of Isidore Newman High-School and a veteran of the United States Navy. Marcel has a degree in Sports Management from ETSU. He has one son, Anthony. Coach Marcel will be working this season with all groups in a rotation with Coach Jorge.

## WHICH TEAM LEVEL IS BEST?

The Kingsport Piranhas have 7 team levels. Each level is designed to provide the swimmers an opportunity to train with other swimmers of the same school age level and experience. The *SwimAmerica* Developmental School is designed for swimmers who are new to swimming and want to learn how to swim safely. As the swimmers advance in the school, they begin to learn the basics of swimming competitively so they can pursue joining the swim team. The *Beginner Piranhas* are for the swimmers who graduated from the swim school or for novice swimmers who have taken a similar safety training school. The *Elementary Piranhas* are for swimmers who are 11 or younger in lower school. The *Junior Piranhas* are for swimmers who are in middle school, 11-14. The *Senior Piranhas* are for swimmers who are in high-school or beyond, ages 14 & up. Elementary, Junior, and Senior swimmers have the option to compete in all aspects of competitive swimming. *Pre-National Piranhas* are for advanced level swimmers starting at middle school age group and extend through college age-group or beyond. These swimmers are striving to qualify for the National Piranhas each season. The *National Piranhas* can potentially begin at 11. These swimmers have shown the ability to commit to swimming in order to compete at an elite level in the sport. Competing at this level requires focus and a strict regimented schedule. Swimmers generally will be required to qualify for this group at the tryouts.

While success in competition is ultimate goal of our program, we want the experience along the way to be as enjoyable an experience as possible for the swimmers and their families. Coaches see firsthand the progress made in the pool by the swimmers and the groups. We believe that this sport is a long-term process and success starts with consistency in training. It is important that the final decision concerning the swimmer's group placement is made by the coaching staff. Several factors go into group placement. Factors like training with friends in their relative age groups play an important part of long-term success in the sport of swimming. Friends who train well together will progress together and have fun in the process. Having fun at practice while working hard is a crucial aspect of USA Swimming and the Piranhas. Team camaraderie is built by the spirit of friendship and community. This is easily pushed aside and ignored in the pursuit of best times and winning. We strive to combine performance training with fun. This is the best way to keep the swimmers in the pool without experiencing the dreaded burnout that haunts even the best swimmers. We will always factor in all aspects when making the final decisions for each member's group placement. We do our best to give our swimmers the necessary tools to succeed so they can achieve realistic valuable goals in the sport.

## SWIM AMERICA

- [SwimAmerica](http://SwimAmerica.org) is our developmental stroke school for all ages 4 and up. This program is goal-oriented, technique driven, and strives to prepare swimmers for our year-round competitive swim program. Classes are 30 minutes for the Learn 2 Swim, 45 minutes for the Mini-Piranhas. Classes are available on Tuesday and Thursday evenings with several sessions available throughout the year. Registration information is available on the team website. Go to [SwimAmerica.org](http://SwimAmerica.org) for more information regarding the school.

## BEGINNER PIRANHAS

- The Beginner Piranhas are new swim team members of all ages 6 and up transitioning from swim school after completing at least level 6 of SwimAmerica's equivalent program. The focus of this group is to learn the necessary skills to become "legal" USA swimmers. In other words, these swimmers are learning how to not get disqualified at swimming competitions. The majority of time at practice is spent working on refining stroke mechanics. These swimmers have started to exhibit good swimming skills and will be introduced to some team training skills and processes.
- The Beginner Piranhas swim Monday, Tuesday, Wednesday, and Thursday. Practices are 45 minutes to one hour each day. They are encouraged to attend at least 3 of the 4 practices and participate in all of the local swim meets on the published team meet schedule.

## ELEMENTARY PIRANHAS

- The Elementary Piranhas consist of swimmers who are in elementary school. Many of these swimmers are advanced swimmers for their age group well-versed in technique and strategy. This is considered a full-fledged training group. Generally, many of these swimmers have a skill level commensurate with National "B and A" times standards. Swimmers in this age group who have a great attitude towards swimming and show excellent work habits at practice but have not met the "B" times standards are still encouraged to practice with this group.
- The swimmers in this age group should be capable of completing a full practice. This consists of keeping up with the group without getting out of the pool due to poor focus, bad attitude, or lack of motivation. Coaches will make several attempts to encourage the swimmers to continue with their training, but if the misbehavior continues the swimmer will be moved back to the Beginner Piranhas. Parents will be notified of their behavior before it gets to that point.
- Workouts for the Elementary Piranhas are offered 4-5 times a week depending on facility availability and usually last one and a half hours (1 ½) each day. They are encouraged to attend a minimum of 3 practices per week and participate in the published team meet schedule. USA Swimming travel meets are highly encouraged as well.

# KINGSPORT PIRANHAS

## JUNIOR PIRANHAS

- The Junior Piranhas consist of swimmers who are in the middle school age ranges. The main goal of the Junior Piranhas is to work toward qualifying for the Pre-National Group. This group also is designed for middle school swimmers who are looking to have fun swimming on a team while maintaining essential healthy fitness or for preparing for the upcoming middle school swim season.
- The swimmers in this age group should be capable of swimming a daily practice schedule. Practices are available all year long even through middle-school season. This is the group to swim in if the member has several after school schedule conflicts throughout the season. Workouts for the Junior Piranhas are offered 4-5 times a week and usually last one and a half hours (1 ½) each day.
- Junior Piranhas are encouraged to attend majority of practices and local published team swim meets; however, attendance is not mandatory. USA Swimming travel meets are available for these members to attend as well. Travel meets are the great way to experience true swimming competition while bonding with the Piranha team members. The experience gained in competition is a best way to work toward qualifying for our Pre-National Group.

## SENIOR PIRANHAS

- The Senior Piranhas consist of swimmers who are in the High school, College, or Masters age ranges. The main goal of the Senior Piranhas is to work toward qualifying for the Pre-National Group. This group is designed for high school swimmers and above looking to have fun swimming on a team while maintaining essential healthy fitness or for preparing for the upcoming high school swim season.
- The swimmers in this age group should be capable of swimming a daily practice schedule. Practices are available all year long even through high-school season. This is the group to swim in if the member has several after school schedule conflicts throughout the season. Workouts for the Senior Piranhas are offered 4-5 times a week and usually last one and a half hours (1 ½) each day.
- Senior Piranhas are encouraged to attend majority of practices and local published team swim meets; however, attendance is not mandatory. USA Swimming travel meets are available for these members to attend as well. Travel meets are the great way to experience true swimming competition while bonding with the Piranha team members. The experience gained in competition is a best way to work toward qualifying for our Pre-National Group.

## PRE-NATIONAL GROUP

- Pre-National Group starts at middle school age group and extends through Senior Age Group. At the start of every season, members who are of age requirements will be given a chance to tryout and commit to the Pre-National Group. To qualify for the Pre-National Group, members' will be expected to have a skill level commensurate with National "BB" time standards. These swimmers should have achieved at least three National "B" times in different strokes.
- Pre-National Tryouts consist of completing an entire 11 & 12 [IM Extreme \(IMX\) Challenge](#) as per the member's specific age group event list on the day of the tryouts. Tryouts will be available throughout the season at designated times on the calendar. Members who do not yet meet the team standards but show promising work habits and team commitment may be selected into the group by the coaches. Qualifying members who do not show the necessary level of commitment, focus, and positive attitude will be moved out of this group and placed with the Junior or Senior Piranhas. This group remains fluid and is entirely up to the coach's discretion.
- Pre-National Group's commitment involves attending a minimum of 5 practices per week, all published local USA sanctioned team meets, and making an honest effort to attend travel meets including any qualifying championship meets. This group consists of swimmers that exhibit a high level of swimming and workout ability. These swimmers are expected to be mature, dedicated, responsible, and dependable. Swimmers in this group are striving to qualify for the National Group.
- Pre-National Group workouts are offered 6 – 8 practices a week for one and a half hours (1 ½) each day depending on facility availability. A dry land / wetland training program and additional swim sessions are available 2-3 times a week in the morning before school and in the evenings. These motivated swimmers are expected to attend 80% of all scheduled practices. **All Pre-National Group swimmers & parents must sign the Team Pledge and Code of Conduct in order to be considered for this group.**

Tryouts will be available throughout the season at designated times on the calendar. At the beginning of each season, all National Group members will be placed back in the Pre-National Group. It is up to the swimmers to tryout and re-qualify for the National Group each season. Qualifying members who do not show the necessary level of commitment, focus, and positive attitude will be moved out of this performance focused group and placed with the Junior or Senior Piranhas. This group remains fluid and is entirely up to the coach's discretion.
- The National Group is our elite group consisting of those competitors who have demonstrated a skill level commensurate with that needed to compete at the LSC Championships, Age Group Sectionals, United States Senior National, and Sectional Championships. Swimmers in this group are selected based on their attitude, skill, dedication, and commitment to the sport of swimming. These swimmers are seeking to achieve their peak performance potential by giving 100 % effort at practice every day.
- Workouts are typically offered 8-9 practices a week for (1 ½) hours plus dryland / wetland training 2-3 times a week depending on facility availability. These motivated swimmers are expected to attend 80% of all scheduled practices. - ❖ 11 Monthly Fees are deducted on the 1<sup>st</sup> of each month, October – August, except September.
- ❖ Those selecting 11-month payment plan for payment of their annual membership will have their payments debited automatically on the first of the month on the credit card or checking account that you must designate.
- ❖ The \$130.00 Annual Registration Fee is non-refundable for all team members. This fee includes USA Swimming registration, 1 swim cap, and 1 team-shirt. All registration fees must be paid by Sept. 1<sup>st</sup>, 2020 in order to ensure your swimmer's place on the team.

- ❖ **Starting September 1<sup>st</sup>, 2020, we have lowered the 11 monthly fees to provide families an opportunity to save more money if they choose to use the fundraising programs. It is important to understand that the total annual price point for a piranha membership has not been raised with these changes in the fundraising fees. The increase in the fundraising fees is equally proportional to the reduction of the 11 monthly fees. If calculated out without paying any fundraising, the 11-monthly fees come out to \$125.00 per month for the first child. \$100.00 for the 2<sup>nd</sup> child, \$95.00 for the third child, \$90.00 for the 4<sup>th</sup> child. These changes increase the opportunity for families to save more money by fundraising.**

Annual Family Fundraising is a program primarily setup for families to save money while still contributing to the Swim Team. One of the programs provides an opportunity for families to earn money while they shop to pay for team fundraising dues through the “[ShopWithScript](#)” program. The fundraising payment can be reduced significantly depending on how much the program is used. Shopping for everyday essential items like groceries and gas with over 700 brands participating makes achieving the goal a real possibility. Finding local or corporate business sponsorships, donations, heat sheet ads, or website ads are all great methods for fundraising that will count towards team fundraising dues as well. Successful member referrals will count \$50 per referral towards fundraising dues. It is important to remember that recruiting from other USA Swimming Teams is a violation of [USA Swimming Policy](#). Participation in this fundraising program is completely optional; however, the fundraising dues will be due for each member if the minimum fundraising requirements are not met by the due dates. Partial fundraising will count towards the balance due. Any fundraising that exceeds the minimum requirement will be split with the team 50/50 allowing 50% to go towards remainder of member dues. [SwimAmerica](#) swim school & Beginner Piranhas will not pay fundraising fees. More information is available on the “[ShopWithScript](#)” website, in the [Team Brochure](#), and in the Team Contract. Feel free to ask the coaches any questions regarding the fundraising program.

## VOLUNTEER COMMITMENTS:

*The Kingsport Piranhas* strives to host a minimum of 4 sanctioned meets per year. The success of these swim meets come from the enthusiastic participation of our families. Our team should be able to provide our own meet officials to successfully host our swim meets. We should be able to provide a starter, meet referee, 3 stroke & turn judges, and two computer operators. Being able to provide our own meet officials will allow our swimming families the best opportunity for hosting local competition at our home facility. All meet volunteer information for each home meet will be made available on our website through the Job-Signup section on the event registration.

The *Kingsport Piranhas* want to make volunteering and fundraising easy and flexible to fit different needs. ***We could not exist without these essential two components of our program. We Thank You for Your Support!*** A more detailed registration agreement will be a part of the on-line registration process. You will be required to electronically read and sign this agreement.

# KINGSPORT PIRANHAS

## THE FAMILY SUPPORT POLICY

The success for both your child and the *Kingsport Piranhas* is only possible with the dedicated efforts of all *Piranha* families. Parental support and involvement are considered a vital element to the success of our team. The success of these swim meets come from the enthusiastic participation of our families. The best views in the Aquatic Center for swimming competitions are on the deck so volunteering is the way to go!

*Kingsport Piranhas* plan to host a minimum of 4 sanctioned meets per year. In addition, as part of our agreement for the use of the pool at Dobyns-Bennett High School, we need to help staff and run their high school and middle school swim meets. It is imperative that as many families as possible step up and assist when needed. Currently, we are working to increase our number of certified officials and administrative personnel. If interested in pursuing an official's position, you can get more information from Head Coach Jorge at 423-967-4264. If you are comfortable working with computers, you may be interested in information regarding training for the computer and timing system operator positions. Please let us know and we will be happy to assist you. All meet volunteer information will be made available on our website.

Please Remember that it is important that we all work together to maintain the quality program we have. The *Kingsport Piranhas* rely on families and volunteers to successfully run swim meets. Many of our families volunteer countless hours every month. It is necessary that all families contribute their fair share during our home meets. It is easy to learn how to donate your time and it is important to show our children the value of volunteerism. Please support your swimmer and our swim team!

## IMX/IMR INFORMATION

**IM Xtreme** is a program that allows USA Swimming members to track their times (or coaches to track their team's times) against swimmers all across the nation! Just by swimming a specific program of events, you can see where you rank against your teammates, your region and yes, even across the USA!

**IM Ready** is the little brother of IM Xtreme, tailored toward our younger swimmers. Does 200 yards seem a little much? Then start getting "IM Ready" by swimming shorter distances and keeping track of your improvements.

An **IMR or IMX score** is only established after a swimmer has swum all of the events required for their age group in a sanctioned meet since the start of the current season; both short and long course seasons start September 1 and end August 31 for IMR/IMX purposes. Additionally, a swimmer must complete all the events in the same course (SCY or LCM) to have a score in that particular course.

### IM READY (IMR)

To get "IM Ready," swimmers compete in a series of five events at shorter distances. Once you have swum each event at least once at an official meet, you can log-in to your Deck Pass Account and find out where you rank against all the other swimmers on your club team. You do not need to complete the IM Ready program to participate in the IM Xtreme. It is simply a steppingstone.

#### 9 & Under, 10-year old's:

- 100 Free, 50 Back, 50 Breast, 50 Fly, 100 IM (SCY) or 200 IM (LCM)

#### 11-year old's, 12-year old's:

- 200 Free, 50 Back, 50 Breast, 50 Fly, 100 IM (SCY) or 200 IM (LCM)

### IM XTREME (IMX)

Ready to move forward? The next step is IM Xtreme (IMX). The IMX ranking includes a series of five or six events at longer distances. Once you have completed the IMX program, you can find out where your IMX score ranks nationally, within your zone, within your LSC and on your club.
