

SwimFit and PreComp Referral Program

Help strengthen the team and share the fun! Be part of building the tradition, dedication, and excellence of Nashville Aquatic Club's rich history for swimmer's today!

Nashville Aquatic Club is excited to announce our Swimfit and PreComp “Refer a Friend” Program! As a continued patron, partner, and supporter of our programming, we want to thank you! Not only are we excited to welcome your swimmer back to the pool to keep your swimmer progressing, but we welcome new swimmers of all ages, levels, and abilities.

Swimming is a training based sport, and Nashville Aquatic Club prides itself on a successful progression of long-term development, consistency for a swimmer is key! We want you, and your friends, to get involved and stay involved in swimming. Swimming is great exercise, and a phenomenal tool in teaching life skills such as time management, team building, focus, commitment, persistence, and leadership!

Here's How it Works

For every 1 swimmer that you refer to the SwimFit, PreComp, and/or Competitive team program, and registers for the current session of SwimFit, or PreComp, or season of the NAC Competitive team your family will receive a \$25 credit towards the next session.

The more friends you refer, the more credit you can earn!

Please see below for more details:

- Families are able to refer up to 3 swimmers for credit each session, which accumulates to a total of \$75 each session, and maximum of 12 per calendar year.
- In order for it to be a referral, that swimmer cannot have been in any session or year-round programming with NAC for at least 1 full year and must be placed and registered in session-run programming (ie SwimFit session or PreComp session).
- The referred friend must attend an evaluation and be placed prior to joining any session or season long programs.
- The credit can be used for your swimmer for the immediate next session only. After that session, the credit will expire.
- If your athlete is transitioned onto the competitive team, the credit is transferable as long as your athlete began in a session program prior to the transition and registers with the competitive team.
