

Dear Sierra Nevada Clubs:

5/14/2020

As we are seeing an re-opening of our economy and society in California and Nevada, our Member Clubs are starting to look toward resuming operations.

We understand the desire and excitement of our Clubs to be back in the water and for our Athletes to be back with their Clubs. The priority of our LSC has been, and always will be, the ***safety and well-being of its athletes and families***. With this in mind, to the Member Clubs of Sierra Nevada, if you plan to resume Club activities in the water with your athletes in the very near future, We recommend that you consider to do the following for your Member Club:

1. Communicate with Sierra Nevada LSC to let us know you are planning on resuming and when.
2. Receive written communication from the body governing your pool facility stating that you are allowed to resume operations. For your clubs own protection we recommend you get specific details in this written authorization
3. Develop and distribute your **Club's Plan to Conduct Practice** for everyone's safety and well-being. Keep in mind: Physical Distancing and Best Practices to Minimize Risk of Covid-19 Transmission, in relation to the following:
 - Total Number of Individuals (Coaches, Athletes & Parents) in the Facility per Session (We recommend keeping detailed attendance to help track this.)
 - Total Number of Athletes per Lane and/or Lane Setup

- Locker Rooms & Restrooms
 - Equipment Usage
 - MAAPP (Minor Athlete Abuse Prevention Policy)
4. Your Club's Course of Action if you become aware of an Athlete or Staff Testing COVID Positive or having Close Contact to a known COVID Positive Case we recommend contacting the county health department to obtain direction while maintaining the highest form of privacy.

We are recommending your club do these things for the safety and success of the clubs, coaches, athletes and families in Sierra Nevada Swimming.

1. Please be mindful of using Best Practices during the still present COVID-19 situation.
2. There is great importance in communicating with governmental agencies and being aware of USA Swimming's Facility Re-Opening resources ([LINK](#)).
3. And most importantly, to emphasize the health and well-being of our Athletes and Members.

Thank you for doing your part in bringing back swimming in the safest and most successful way. In order to help you, we have included links that may facilitate your safe re-opening:
