With 4 CJ's

Starting Area-CJ

CJ's are responsible for their quarter(half of the pool). The Lead Chief will support each area during the meet.

# Radio Communication

- \* Check all radios make sure they are on same channel
- \* 1 CJ will hand out all radios inform all of roll call time
- \* When on deck, 1 CJ will initiate a roll call at designated time
- \* Each CJ will notify DR that S&T in their quadrant, are in place.
  - Should be before the National Anthem
  - This means we are ready to start the meet

# Radio Communication

- At S&T briefing tell them the first thing you want to hear is the lane # when you approach them
  - Then, proceed with the answers to the 3 standard questions

## How is a call communicated?

- If you see a S&T hand raised your verbiage is:
  - *“Possible disqualification, turn end, lanes 3-4”*
- After you arrive, S&T will state lane of potential call:
  - *“Lane 4”*
- After discussion with S&T, not hearing any doubt
  - *“E1-H1-L4, 1 hand touch on turn 3, I recommend you accept the call.”*
- DR will repeat back same, *“E1-H1-L4, 1 hand touch on turn 3, I accept the call, please write it up.”*
- If notifying swimmers, DR will add *“and notify the swimmer”*

# Radio Communication (cont)

- \* What happens if the S&T is doubtful of the call?
  - ❑ If S&T rescinds, simply state “No Call”
  - ❑ If S&T is doubtful, wrong rule applied or can’t explain what they saw, then;
    - “E1-H1-L4, two arm pulls at Turn 3, I’ll come talk to you” **or**
    - “E1-H1-L4, I’ll come talk to you” **or**
    - “E1-H1-L4, two arm pulls at Turn 3, recommend you do not accept the call.”
  - ❑ The 3 options is up to the MR on how they want this handled
  - ❑ **Remember you cannot tell the S&T that is not a call. Only 3 people can overturn a call.**
    - S&T, DR, MR

# Radio Communication (cont)

Keep traffic minimized, no unnecessary comments

- When to **not** talk on the radio:
  - ❑ During the start of a heat
  - ❑ Try not to talk over each other if multiple calls
  
- Important items to pass over the radio
  - ❑ Cap in water, counter in the water
  - ❑ Injured athlete needing immediate medical attention
  - ❑ Pad falling off the wall
  - ❑ Etc.,

# Radio Communication (cont)

## ➤ Relays:

- ❑ CJ's should always stay on the sides of the pool
  - Still responsible for watching S&T especially Medley's
- ❑ RTO in your quadrant
  - Can delegate if DR, w/radio, is an RTO, they can call in
- ❑ If outside RTO has no X's – *“Lanes 1-4, Clear”*
  - Once all lanes clear, DR will repeat *“ E35-H1 all clear”*
- ❑ If outside RTO has an X, take slip to inside RTO, if confirmed
  - *“E35-H1-L5, Confirmed early take off, swimmer 3”*

# Local Meets vs Championship Meets

Biggest difference is the experience of the S&T

Situation	Local	Championship
Rotation	May have to remind S&T	Should know when to rotate
Positioning	May have to remind S&T to wrap around sides in backstroke	Should be there, normally rotated each heat
Relief	May have to remind them to show up on time	Should be there
Lead-Lag	Definitely explain they are still learning	Might have to go into detail, reminder here & there
Protocol	Explain and remind	Should know where to go and when
