

Hanover Happy Invitational Information - PLEASE READ ALL OF THE INFORMATION

Arrival:

Entrance to the building will be on the far right side (if facing the front) at the end of the building for all swimmers and workers. PLEASE DO NOT ENTER THROUGH THE FRONT DOOR.

Temperature checks will be done for all swimmers. You may want to check your swimmer before you leave the house so there are no surprises!

Plan your arrival time so that we don't have a backup doing temperature checks. Second warm up swimmers should not arrive before 8:00am.

Seating:

Swimmers will be seated inside the pool area in the grandstand section and spread out. No swimmers should be seated side by side. Allow for at least one seat between each swimmer.

Spectators are limited to 2 per swimmer. Spectators can either bring chairs and be seated outside the right hand side of the building in the grass area or may wait in their cars. We will be communicating Event/Heat lanes so that parents can line up to watch their swimmers swim. Parents will enter through the side entrance and stand along the side of the pool opposite of the grandstand. Once their swimmers heat is complete they will be asked to walk down to the end of the pool and exit through the door. Please maintain social distancing amongst other spectators.

Masks:

All coaches, meet officials, and workers are required to wear a mask during the entirety of the session.

Swimmers are required to wear a mask while entering/exiting the pool area, using the restrooms, and seated in the grandstand area.

Swimmers are NOT required to wear their mask when headed to the warm up/down pool or to race their events.

Spectators should all wear a mask when entering the building to watch their swimmer.

Warm Ups:

Each team has been assigned warm up lanes (to allow for a max of 4 swimmers per lane) prior to each session, as well as, during the session. Please make sure swimmers are using the lanes assigned to their team. No standing/playing, etc will be allowed in the warm down pool.

Swimmer Line Up Prior to Racing:

Each swimmer should plan to move through each stage while maintaining social distancing. Swimmers should head to the staging area with only their caps and goggles as they will not be able to retrieve items behind the blocks after their race.

Stage 1 - will be marked near the end of the grandstand section.

Stage 2 - will be along the wall beside the blocks

Stage 3 - will be behind the swimmer blocks, next in line to swim

Stage 4 - heat ready to swim at blocks

Once swimmers finish their race and the heat is complete - all swimmers will do a 25 yard cool down to the bulkhead and exit the pool. They should leave the bulkhead on the grandstand side of the pool. They may either go to the warm down pool, visit with their coach or back to their seat.

***This does not apply to swimmers swimming 25's. These swimmers will start on the bulkhead and exit at the timers end and return to their seats.

Concessions:

There will be a modified version of the Jeff Rouse concession stand at the exit end of the pool deck.

Miscellaneous:

When swimmers are done with the session we do ask that they warm down and leave the pool area.

Locker rooms are NOT available so swimmers should arrive and leave in their suits.

No one participating in the meet is allowed in other parts of the facility.

Heat Sheets will be sent out via email and on the Hanover Aquatics website by Friday morning. Please make sure your swimmer knows their Event/Heat/Lane's before arriving at the pool.

*****Sign up for Remind Messages about where we are in the meet so you can come watch your swimmer!

Text @hanoveraq to 81010 to sign up!
