

JANUARY CLASSIC INFORMATION

This is just a quick note going out to all the non-BAC participants in this weekend's BAC January Classic Meet

MEET LANDING PAGE

First, be sure to visit the link above for all of the most important information related to the meet!

FACILITY & PARKING

Verona is a fabulous facility that many teams were introduced to through the state meet last month. But this will be the first trip for many families. Welcome! Please do NOT park in the 'pool lot' instead use the 'main parking' you see on the map to the right.

SESSIONS AND FORMAT

It's a pretty basic meet structure, with two sessions each day Saturday and Sunday. The AM sessions are for 8-under and 'Open' swimmers, the PM sessions are for 10-under and 11-12 swimmers. Each session is scheduled to take about 3 hours (plus the hour of warm-up). A detailed session report is posted on our landing page.

- The one quirk to the format is that the 'Open' events are 'mixed' gender events.
- One note on the labeling of the sessions. The original meet had a Friday session that got cancelled. So "Day 2, Session 2" (or "D2/S2" as you'd see it on TU) is Saturday AM, "D2/S3" is Saturday PM, and so on...

ADMISSIONS & HEAT SHEETS

Heat sheets will NOT be for sale on site – THEY'RE FREE!. You can find them on our hosted meets page. (Heat Sheets will be published/posted by Thursday AM.) You can view them electronically the day of the meet, or pre-print them if you prefer a hard copy. We'll also have them available through Meet Mobile.

Admissions is also included in your athlete/facility fee so it will be free the day of the meet!

CONCESSIONS & SEATING

The VAHS Natatorium has a TON of seating, so plenty of space in the mezzanine. We'll also have concessions available in the mezzanine area.

WARM-UPS

Warm-ups are assigned by lane and posted on the meet landing page. BAC is taking the early shift each session and has assigned lanes to each of the other team for the second portion of the meet. The diving well will be open throughout all sessions, but the warm water pool is NOT available for this meet.

**That should be all of the basic information. It going to be a fun
and fast meet – see you this weekend!**
