GYST Parent Officials Reimbursement

Thank you, for taking the time to give back to our team, the Wisconsin swimming community and your swimmer by becoming a USA and Y swimming official. We are happy you made this decision! For taking the time and doing this service, we would like for your training and registration fees to come at no cost to you. We are able to fund this due to the fundraising efforts of the team each year. Here are some guidelines on how you can get reimbursed for these fees:

Training Reimbursement

Once you have finished your required apprenticeship as an official, you can then turn in your certification and recites to the Head Coach to get reimbursed. You will **not receive reimbursement** until the apprenticeship is completed. Once the apprenticeship is completed, please turn in and recites or certifications as proof.

Registration Reimbursement

At the beginning of the fall season or the beginning of the new year is when you will need to fill out a Non-athlete USA registration form and turn it into the Head Coach for them to submit it with the athlete forms. All you have to do is fill out this form along with your athlete's form and you will only be charged for the athlete and not yourself. The team will cover the charges.
