

This is the new USA Swimming App, available now in the app store for ipad and iphone. Coming soon for Android.

Deck Pass and Deck Pass Plus are no longer in use. Delete them. This (left) is the app you need, and if you are a non-athlete or 18+ athlete member of USA Swimming, this is the app you will be expected to use to prove your membership and certification.

If you already created a new login in the new system this fall, use that to log in to the app. DO NOT CREATE A DUPLICATE LOGIN, or you will need to contact support@usaswimming.org to have the issue fixed.

If you have not yet created your new login, you will need to do that.

Log in with your username and password. You will see your Dashboard page. In the My Member Cards box, tap whichever role you wish to view.

The top portion of the Member Card will show

- your current LSC and club affiliation
- your In Good Standing Until date – indicates you need to update one of your certifications or your registration by this date
- your USA Swimming registration expiration date

The bottom portion of the Member Card will show *all* certifications required for this particular role (Official, Coach, Athlete, etc), and the expiration dates for each.

*Concussion Training in Iowa requires no re-certification, so the expiration date will show 01/01/1000

**Android users – until the app is available for you, you may print your card (login to your account on your computer, laptop, or tablet, from your Dashboard, click on your Member Card, print).

We do also have some members who do not use a smartphone – they may print their card (login to your account on your computer, laptop, or tablet, from your Dashboard, click on your Member Card, print).
